Requirements for Rebate Processing:

- Equipment must be installed and operational before submitting this form
- Copy of sales receipt/invoice
- Completed/signed copy of this form

Your receipt or invoice must clearly indicate the equipment type, make, model, serial number, price, date of purchase or installation, and installation address.

Completed documentation needs to be received within 60 days of installation.

Equipment must be new (not used), and not replacing similar equipment, to be eligible for incentives.
